Corporate Offerings — Balloonía Events

Date: 2026-05-01

Source structure: mydecoballoon.com/corporate-balloon-decorations (extracted via WebFetch)

Adapted for: Balloonía Events London Ontario, ICP 03_ICPs/corporate.md

Output destinations: main site /services/corporate page + downloadable PDF (Canva or designer)

Page structure (template, voice-aligned for Balloonía)

Hero section

Headline: Corporate balloon installations in London Ontario, built by a trained pro.

Pitch (subhead, ~2 sentences): From grand openings to holiday parties, Brenda builds installations that match your brand colors and photograph well for social. Delivery, setup, and cleanup included. You don't have to think about it.

Hero photo: Best corporate install Brenda has shot (grand opening, brand activation, or office holiday party). Pull from 01_People/brenda.md Drive link.

Primary CTA: "Get a quote" → /quote (with corporate event type pre-selected)

Section 2: Event types we do

Three columns or rows, each with one photo + 2-3 sentences.

1. **Grand openings & brand activations** — Storefront launches, ribbon cuttings, product launches. We design around your brand colors and load in before guests arrive.
2. **Holiday parties & employee events** — Office Christmas parties, anniversaries, year-end celebrations. The decor that makes the room feel finished without taking your team's time.
3. **Trade shows & client visits** — Booth backdrops, branded columns, ceiling features. Built to photograph well for marketing and to dismantle clean for the next event.

(Optional 4th: **Auto dealer events** — for the dealership ICP. Same structure: showroom decor for new model launches, weekend sales events, customer appreciation days.)

Section 3: Service tiers

Pulling from 05_Content/gmb-launch-copy.md Service 9 and aligned to Balloonía pricing.

Tier	Range	What you get
Office event	\$300-\$800	Single-room install. Branded balloon columns, table accents, doorway arch. Small team event scale.
Brand activation / Grand opening	\$1,500-\$5,000	Full venue or storefront. Branded backdrop, columns, ceiling treatment, photo-op wall. Built for social media impact.
Holiday party	\$1,000-\$3,000	Single-night transformation. Themed backdrop, ceiling installation, table arrangements. We load in 2-3 hours before, you focus on the event.
Repeat / Contract	Custom rates	For accounts running 4+ events per year. Predictable rates, priority scheduling, brand-color palette saved on file.

Note: all tiers include design consultation, delivery, on-site setup, and post-event cleanup. No hidden fees.

Section 4: How it works

Four steps, each with a one-line description. Mirrors the Balloonía lead flow.

1. **Tell us your event** — Date, venue, brand colors, headcount, scope. 5-minute form or a quick call.
2. **We send a quote within 24 hours** — Custom design idea, pricing, mood board if helpful.
3. **Approve and pay deposit** — 50% deposit secures your slot. Stripe.
4. **We show up and build** — Brenda arrives 2-3 hours before the event. You walk in to a finished install.

Section 5: Social proof

Currently: placeholder with copy like "Trusted by London Ontario businesses (logos coming as we land accounts)."

As accounts come in: logo strip with permission. Testimonials with name + company. Photos of the actual installs (not stock).

Don't fake this. Empty is better than fabricated. We'll fill it organically.

Section 6: Why Balloonina for corporate

Three points, each with a short paragraph:

1. **Brenda is formally trained.** Most local balloon vendors are self-taught. Brenda completed professional balloon artistry training and works with an active mentor in Toronto. The structural quality of the install matches the hours your team spent planning the event.
 2. **Photographs well for social.** Every install is built to look right at camera height, with color palettes that match your brand and clean lines that don't show construction tape on Instagram zoom.
 3. **You don't manage logistics.** We deliver, install, photograph if you want, and clean up. Your office manager doesn't need to coordinate vendors at 7am the day of.
-

Section 7: FAQ (corporate-specific)

Pull and adapt from the GMB Q&A in `05_Content/gmb-launch-copy.md` . Add corporate-specific:

1. **Do you handle invoicing on Net-7 or Net-30 terms?** Yes, with an explicit contract for accounts of \$1,000+. Standard requires 50% deposit.
 2. **Can you load in after-hours or weekends?** Yes for installations \$500+. Coordinate timing with us when you book.
 3. **Do you provide a certificate of insurance for venue requirements?** Yes, on request. Most London ON venues have us on file already.
 4. **Can you match a specific brand color palette?** Yes. Send a Pantone reference, hex code, or a brand guidelines PDF and Brenda matches it.
 5. **What's your minimum booking lead time for corporate events?** 7 days for events under \$1,000. 14 days for events \$1,000+. Rush bookings possible with surcharge per `05_Content/gmb-launch-copy.md` Q3.
-

Section 8: CTA repeat

Primary: "Get a quote" → /quote (corporate type pre-selected)

Secondary: Phone (Quo number, click-to-call), email (`contact@balloonias.events`), Cal.com booking link

Tertiary: "Download our corporate offerings PDF" → links to the Balloonias-branded version (built from this page in Canva by DH or designer)

What we borrowed from mydecoballoon (and what we changed)

mydecoballoon	Balloonias adaptation
Hero pitch leads with "elevated balloon visual experience"	Replaced with specific, plain-language pitch leading with "built by a trained pro"
Big-name client logos (Amazon, UNIQLO, NYU, Walmart)	Placeholder until we earn real London ON references
"Fully insured" + iconic venue list (WTC, Empire State)	Will add when we have actual COI on file + venue partnerships in London
Generic "From Grand Openings to Award Ceremonies..." copy	Specific event type sections with our own language
External PDF for pricing	Inline service tiers on page, optional downloadable PDF
Single CTA ("Get a Quote")	Same primary CTA + secondary phone/email + tertiary PDF download

The structure works. The copy is ours.

What we're NOT borrowing

- Their geographic positioning (NJ/NY) — irrelevant to London ON
 - Their licensed/character SKU references (we're not Disney-licensed)
 - Their pricing (we're aligned to woowballoons floors per DH direction)
 - Their visual design (DH's developer is doing better than the mydecoballoon site)
-

Output for Block #4 / website dev

This file feeds two destinations:

1. `/services/corporate` **page on balloonia.events** — the dev pulls structure from this file and fills with the page-by-page brief in `99_Inbox/website-dev-brief.md` Section 5
 2. **Downloadable corporate PDF** — DH or designer builds in Canva from this content. Lives at `/downloads/balloonia-corporate-offerings.pdf` on the site, linked from the page CTA
-

Note on the source PDF

The `Corporate Balloon Decor-2 (1).pdf` (mydecoballoon's pricing PDF) is over 20MB and could not be read by Claude's Read tool directly.

This is fine because:

- The mydecoballoon corporate page web extraction already gave us the structural template
- Pricing was already aligned to woowballoons floors per DH direction
- We don't want to copy mydecoballoon's exact pricing or structure verbatim anyway (legal/voice reasons)

If DH wants the PDF content extracted:

- Open the PDF on disk and copy/paste the text into a `.md` file in `99_Inbox/`
- Or upload the PDF to a smaller cloud copy (compress if possible)
- Or the AI reading layer in Claude Code can be skipped — DH can summarize the PDF themselves in 5 minutes if there's something specific they want to mirror
